Fulfillment Preferences

Last Modified on 02/24/2020 12:02 pm EST

To review these settings, navigate to Menu > System Admin > Preferences > Fulfillment.

These preferences affect the following areas:

- Job Management Controls when jobs and tasks are opened, how costs are applied, and when job assignment notices are sent.
- Task Management Controls task notifications and opening statuses.
- Time Management Tracks time entries from call dialogs.
- Inventory Controls the assignment of inventory costs to jobs.
