

# Troubleshooting Authorize.Net Errors

Last Modified on 04/26/2021 3:32 pm EDT

This guide explains how to handle errors that may occur in Authorize.Net. It is intended for system administrators.

## Third-Party Software

Authorize.Net (Authorize) is software developed and distributed by another company. Specific questions about configuring the product or troubleshooting should be addressed to [that company's customer support services](https://www.openedgepayment.com/en/support) (<https://www.openedgepayment.com/en/support>).
