

NRG Address Validation

Last Modified on 08/13/2025 7:12 pm EDT

This guide is intended for Duggal Visual Solutions general users specifically. Information herein may contain customizations and particulars specific to the Duggal aACE system. Click this [link](https://aace5.knowledgeowl.com/help) (<https://aace5.knowledgeowl.com/help>) for the General aACE Software aACE 5 Knowledge Base.

Whether you auto validate or use the validate button, the address will be validated. You can get a number of responses.

1. Valid, Residential

A screenshot of a software interface showing a green checkmark icon next to the text "Valid, Residential". Below this, there is a checkbox labeled "Residential Address" which is checked. To the right of the checkbox is a dark button with the word "Validate" in white.

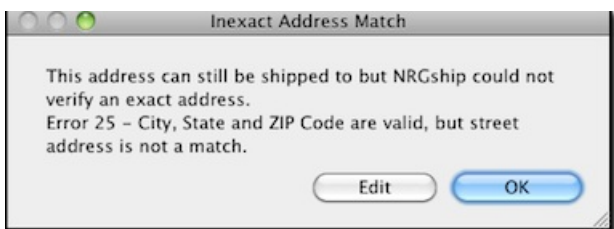

2. Valid, Business

A screenshot of a software interface showing a green checkmark icon next to the text "Valid, Business". Below this, there is a checkbox labeled "Residential Address" which is unchecked. To the right of the checkbox is a dark button with the word "Validate" in white.

3. Invalid - Inexact address or Address Error

A screenshot of a software interface showing a red exclamation mark icon next to the text "Invalid". Below this, there is a checkbox labeled "Residential Address" which is unchecked. To the right of the checkbox is a dark button with the word "Validate" in white.

Inexact Address

A screenshot of a dialog box titled "Inexact Address Match". The text inside the dialog box reads: "This address can still be shipped to but NRGship could not verify an exact address. Error 25 - City, State and ZIP Code are valid, but street address is not a match." At the bottom of the dialog box, there are two buttons: "Edit" and "OK".

If you click OK, the address will be left the way it is and be shown as a Valid address, allowing you to continue with your shipment. If you click Edit, you will be able to edit the address and validate again.

Address Error

Click OK and change the address information.
